

Alumni Meet

Alumni Cell of SKNCOA-

The single point of contact between Alumni and Institute, offers our alumni a host of services that helps them keep in touch with their batch mates and also keep them updated on campus happenings.

Functions of the Cell

- Provide a platform for the alumni to connect with each other for the exchange of Information, ideas, communicates their accomplishments, interests, and concerns, etc.
- Take opinions from the Alumni for the betterment of student's career.
- Enrich the emotional bondage amongst the Students, Alumni and Faculty.
- Extend maximum help to the College in the placements and internships of students in reputed organizations.
- Recognize Alumni for their significant contributions to education.
- Institute awards for meritorious students.
- Institute awards for the Alumni for their contribution to the College and the Society.
- To strengthen ties between the Institute and alumni and encourage them to participate in the various cultural and social activities

My journey at SKNCOA has been a wonderful one. Although our batch was mostly going in online due to pandemic, we always got good exposure. I got great experience and guidance during the academic year right from improving my landscape knowledge, GIS techniques, set to picking the Internship & job further. I am very Grateful to college.

After 2 years in SKNCOA I have evolved as a person not only in terms of academic aspects but in a holistic way. This college has helped me to think out of box and think differently with various multidisciplinary skills because of the various subjects offered by the college. The school always up to date with the modern practice of architecture which helps to future ready. This college has helped me grow and develop as a professional and as a person. The faculty at the college is approachable and knowledgeable. The professors treat us as colleagues and not students which helps to interact with them more freely. The curriculum is broad and modified as per the advancing technology and stream happening throughout the world. The worst of all the assignments and competitions the college organizes to help us to develop various skills like landscape, software, site planning, and conceptualization etc.

The 2 years we spent in college, we get shaped in a unique way. We learn not only from the books and study but in the real life. We are trained in theoretical and practical aspects of Landscape Architecture. The entire journey of SKNCOA has been great for me and I have grown and developed beyond my expectations. I am really grateful that could be a part of this college.

This two-year journey has been just a life-learning experience full of knowledge. Personally, for me along with the course curriculum, it has helped me in the upliftment of my communication skills, overcoming public speaking fear, and presenting any content very effectively on paper. The faculty has been very kind, inspiring, and guided us throughout all the tenure of the course and tried their best to bring out the best potential from every student.

-Abhishek Shrotri

Me and Anagha had pondered extensively about our decision of doing a masters degree at such a late phase in our lives. But right from the first day at college we started with tons of enthusiasm and excitement about the course and its curriculum. With a varied age group of classmates and extremely enthusiastic faculty, it became even more fun at SKNCOA. Learning theory subjects was an enriching experience. Outdoor visits, and various workshops organized by the college added valuable knowledge and gave us very good exposure to the practice. All throughout the online teaching due to the Corona pandemic, the classes were conducted and managed well without disturbing our academic flow. The faculty made sure that we perform to the best of our abilities by encouraging us and giving us the correct inputs as and when needed. I am thankful to the Principal, Dr. Sudhir Chavan and teachers - Ar. Neels Meshelkar, Ar. Mukta Gokhale-Kulkarni, Ar. Ajita Taware, Ar. Sonali Dalvi, and Prof. Harish Kulkarni for making this Master course a memorable and enriching experience for me.

Neelima Bhide

The course is very intense, but the process is very enjoyable. The subjects and projects we were made to study and handle were beyond imagination. The course gave me opportunity to tap into my hidden capabilities. It encompasses so many fields and subjects that the journey has been an enriching one. I really enjoyed my two years and at the end of the journey I find myself to be well read and well informed.

Thank you,

Anagha Deosthale

My post graduation in landscape architecture at SKNCOA has been a very interesting and awe-some journey. Those days at SKNCOA are precious memories of fun and enjoyment together with studies. When I took admission in this college, I was really afraid as all the people and landscape branch were new to me. But soon, I started enjoying my college life. I am thankful to all the faculties members of the college for their support. It always felt like a family. I have got infinite love & support from my classmates. We travelled lots of places for case studies and had new experiences also learned many new things in landscape. I'm very proud to be the part of SKNCOA. Thank you very much to all my teachers who groomed and shaped my life.

Nikita Barde

The March journey of 2 years with the SKNCOA was really very interesting. For me to do March after 25 years of a gap of learning process was a tough task however all the teachers were really co-operative and had been giving continuous direction. The online teaching and learning was really challenging however Mukta ma'am and Neha ma'am had taken extra efforts to ease out the way of teaching. Even Principal Chavan sir had always taken special efforts to plan out different lectures of teachers and organize the Site visits as well which really helped to get the practical experience. I thank the entire Teachers team for the wonderful guidance throughout the journey.

- Seema Seth

The Journey of SKNCOA was undoubtedly a special time in my life. For the first time in my entire learning, I sat with people of different age ranges. With my classmates having work experience the same as my age. Firstly this thing scared me but eventually, I started loving it more than I had ever faced before with the same age group. A general thought while doing master's was that this is a branch of Architecture but while studying landscape it felt like every branch comes under landscape. I got to learn a lot in these two years. Completing submission and the thought process behind it was a great hurdle for me but it was the teacher and their patience towards me that made classes interesting and made learning more effective for me. This has been an amazing journey.

-Prerna Kataria

This two-year journey has been just a life-learning experience full of knowledge. Personally, for me along with the course curriculum, it has helped me in the upliftment of my communication skills, overcoming public speaking fear, and presenting any content very effectively on paper. The faculty has been very kind, inspiring, and guided us throughout all the tenure of the course and tried their best to bring out the best potential from every student.

-Abhishek Shrotri

Completion of post graduation is dream come true for me... I am very fortunate that I took admission in SKNCOA. Pursue for my Master's in Landscape Architecture. Faculty and all my colleagues are very helpful and without this journey wouldn't be so enjoying. This is best years of education in my life... Staff is very helpful and they help me to get through each and every difficulty in study. Thank you SKNCOA for this studios, improving and enjoyable years of my life!

-Priyanka Kanase

The formal farewell ceremony was curbed due to unavoidable situations. So this year after the rejuvenate 2022 event, SKNCOA decided to greet our Alumni- Both PG & UG batches, with a small celebration together in the form of a Gala Dinner! It was really a joyful & emotional ride down the memory lane for Students & Faculty.
