In today's world, the significance of cultural history has grown immensely, with its richness vividly expressed through literature, art, and architecture. India, a land abundant in art, culture, and tradition, offers a treasure trove of cultural heritage spanning various religions, languages, and traditions. To truly understand and appreciate the essence of Indian art and culture, it is essential to delve deeply into its art and architectural history. The cultural history of India cannot be fully articulated without acknowledging its art history, which is embodied in the form of temples, stone murals, stupas, caves, statues, and more-scattered across the country.

The purpose of this conference, organized in collaboration with I-SARC, is to bring this cultural wealth into the spotlight and foster awareness and interest among locals and archaeology scholars. It aims to promote the preservation and conservation of this invaluable heritage, educate future generations, and encourage the development of more scholars with a scientific approach to studying India's art and architecture.

Design Workshop with Manthan Design Studio

S.Y. B.Arch.

07 – 09 August 2024

This workshop was conducted to guide the students through the process of design development, concept development and its expression through sketching and model making.

DESIGN WORKSHOP
[Bachelor of Architecture – 2nd Year]

Ar. Sachin Patil and Ar. Sheetal Patil

'MANTHAN Design Studio' is a team of Architects/ Designers specializing in Architecture, Interior & Landscape Design.

Architecture we believe is not just a profession, but also a way of living. It defines and evolves our thought process as individuals. Wherein everything we look at, touch, feel, is an experience that leads us to a conscious reflection and response towards things in all spectrums of life, which in turn governs our design process.

"We first shape our buildings and then our buildings shape us"

The name Manthan is derived from our belief that to arrive at a distillation of thoughts and spaces one has to go through a thorough churning of ideas before rejecting or accepting anything. "Emptiness in architecture or empty space is not empty but full, the greatest luxury in the 21st century's consumerist maelstrom is freedom from possessions!" Therefore we endeavor to make an architecture that serves as a backdrop for life to unfold, without overpowering or dictating the context or lifestyle of our clients. Simplicity is the ultimate sophistication and rather difficult to achieve, one has to go through the full circle of complexities to come back to simplicity. It is about being true to oneself and respecting our instincts. We, at the Manthan Design Studio, strive to keep it simple!

Workshop Objective:

To guide students through the design development process, including concept development, sketching, and model making.

DESIGN CONCEPT

DESIGN PHILOSOPHY
 THE YIN YANG SYMBOL REPRESENTS THE BALANCE BETWEEN OPPOSING FORCES. IN A COMMUNITY SPACE, THIS CAN TRANSLATE TO CREATING AN ENVIRONMENT THAT BALANCES VARIOUS NEEDS AND ACTIVITIES WHILE FOSTERING A SENSE OF UNITY AND INTERCONNECTEDNESS AMONG USERS. QUIET AREAS FOR REFLECTION AND LIVELY SPACES FOR SPECIAL INTERACTION. APPLYING THIS CONCEPT IN A DESIGN CAN PROMOTE A SENSE OF INCLUSIVITY AND UNITY AMONG COMMUNITY MEMBERS BY CELEBRATING DIVERSITY AND FOSTERING CONNECTIONS BETWEEN DIFFERENT GROUPS. INCORPORATING NATURAL ELEMENTS LIKE PLANTS OR WATER FEATURE WITHIN THE SEATING AREA CAN ENHANCE THE YIN YANG THEMES BY SYMBOLIZING THE HARMONY BETWEEN HUMANITY AND NATURE.
